MarVac

ASSEMBLIES

A division of Marsh Electronics, Inc.

Marsh Electronics' value-added center, known as MarVac Assemblies is a solution's provider committed to reducing costs, production time and supplier base. MarVac is dedicated to continual improvement.

WIRE HARNESS/CABLE ASSEMBLIES

MarVac has the capabilities and knowledge to assist you with your wire processing needs. We have the ability to ultrasonic weld as well as a myriad of terminating processes. MarVac solders, cuts, strips, hot stamps and kits. Testing to include continuity, pull, resistive, Hi-Pot and functional.

COMPONENT PREPARATION

MarVac, a division of Marsh Electronics, has access to hundreds of passive and electromechanical component lines providing switches, relays, capacitors, resistors, terminal blocks, LEDs circuit protection and fans. MarVac can modify these components by adding wire, tubing, connectors and marking for identification.

MECHANICAL ASSEMBLY/BOX BUILD

MarVac has the expertise to assemble electro-mechanical assemblies. We offer light machining, riveting, hardware installation, wiring, components and countless styles of enclosures.

SPECIAL PACKAGING/KITTING

MarVac Assemblies provides packaging and kitting services. They have the ability to take several parts and create one "kit" under one-part number. This significantly reduces the number of transactions, as well as providing convenience for the customer. MarVac will custom package and mark bags and/or boxes with most barcode symbology.
